BORUSAN INTRODUCES THE NEW CAT GC SERIES DIESEL GENERATOR SETS

Caterpillar is introducing the new Cat GC diesel generators designed to meet customer needs. Suitable for use in various applications thanks to their compact size and cost-effective operation, the new generator sets deliver power in an environment-friendly way. Powered by Borusan Cat's customer centric services and guarantee, the sets will be available in Turkey, Kazakhstan, Azerbaijan, Georgia, Kyrgyzstan and Far East Russia.

Considered as one of the best Caterpillar distributors with innovative customer services and complete solutions, Borusan Cat introduces the new Cat GC diesel generator sets optimized for space and budget requirements. Designed for various applications such as health care facilities, production plants, agricultural facilities, municipal infrastructure, wastewater treatment plants as well as commercial businesses and office buildings, the Cat GC generator sets offer value to customers by delivering power in an environment-friendly way.

New product line, same Cat reliability

Offering a range of 33 kVA to 1100 kVA for 50Hz and 60Hz applications, the new Cat GC generator sets also focus on small and medium sized businesses with a design based on Caterpillar's efficiency, reliability and productivity criteria. With the new product line, Cat optimized mix of common features that offers excellent customer value by delivering performance without compromising reliability. The new Cat GC sets not only support environment-friendly power production with lower emission but also optimize budget requirements by delivering the same power with more cost-effective options. The new GC diesel generators can be remotely controlled via Cat Connect, a global reporting and warning system with an easy-to-use web interface, designed for customer needs and demands.

Supplemental extended warranty options from Borusan Cat

A complete solution provider for customer needs with digitally transformed processes, broad service network and innovative initiatives, Borusan Cat offers a standard two-year warranty for the new GC diesel generator sets. Extended warranty options are also available upon request.
